PROFESSIONAL SUMMARY

Highly motivated Computers and Information graduate with strong technical expertise in networking, Windows Server administration, Microsoft Azure cloud services, and IoT technologies. Hands-on experience configuring enterprise lab environments including Active Directory, DNS, DHCP, Hyper-V, WAC, LAPS, and Azure IaaS workloads. Completed 288-hour advanced technical program (NTI) covering Windows Server 2016/2025, Azure Administrator (AZ-104), Azure Networking (AZ-700), and Azure Security (AZ-500). Skilled in troubleshooting network issues, managing hybrid cloud infrastructure, and developing IoT-based smart solutions using ESP32 and Arduino. Seeking a role in IT support, system administration, cloud engineering, or network engineering.

PROFESSIONAL EXPERIENCE

IT Help Desk Technician | Wataniya Roads Company

Nasr City, Cairo, Egypt • Jan 2025 – Jun 2025

- Provided Tier-1 technical support to 40+ end users, resolving hardware, software, and network issues with an average resolution time under 2 hours.
- Deployed and configured Windows OS and business applications across 30+ workstations, reducing setup time by standardizing installation procedures.
- Diagnosed and resolved LAN/internet connectivity issues for 40+ employees, maintaining 99% uptime through scheduled preventive maintenance.
- Built and maintained a knowledge base of 50+ documented IT issues and resolutions, reducing repeat ticket handling time by ~30%.
- Installed and configured a CCTV surveillance network of 20+ IP and analog cameras with DVR/NVR setup and remote viewing, improving site security coverage by 100%.

EDUCATION

Bachelor of Computers and Information | Zagazig University

Specialization: Information Technology - IT • Graduated: 2024 | Grade: Very Good

SCHOLARSHIP & TRAINING

Advanced IT Infrastructure & Cloud Administration | National Telecommunications Institute (NTI)

• 2025 – 2026 • 288 Hours

- **Windows Server 2016\2025 Administrator.**
 - 20740C Installation, Storage and Compute with Windows Server.
 - 20741B Networking with Windows Server.
 - 20742B Identity with Windows Server.
- **AZ-900T00A Introduction to Cloud Infrastructure.**
- **AZ-104T00A Microsoft Azure Administrator.**
- **AZ-700T00A Design and Implement Microsoft Azure Network Solutions.**
- **AZ-500T00A Secure Cloud Resources with Microsoft Security Technologies.**
- **AZ-800T00A Administer Windows Server Hybrid Core.**
- **Career Development Program.**

TECHNICAL SKILLS

Networking: Configuration, Routing Protocols (OSPF/EIGRP/RIP), Switching, VLANs, VPNs, Network Security, Troubleshooting.

Windows Server: AD DS, DNS, DHCP, GPO, Hyper-V, Failover Clustering, NLB, VPNs, Storage Spaces, Data Deduplication, WAC, LAPS.

Microsoft Azure: **AZ-900** (Cloud Concepts, Compute, Storage, Identity, Governance), **AZ-104** (Azure AD, VMs, VNets, Load Balancer, Storage, AKS, Monitoring), **AZ-700** (VNets, Hybrid Connectivity, Load Balancing, Network Security), **AZ-500** (Identity Protection, PIM, Host/Container Security, Microsoft Sentinel), **AZ-800** (Hybrid AD DS, Azure Arc, Windows Containers, Kubernetes, IaaS VMs).

Azure Services: Azure AD, RBAC, Azure Policy, VMs, VNets, Firewall, Load Balancer, Blob/Files Storage, AKS, Azure Monitor, Microsoft Sentinel.

Surveillance Systems: CCTV Installation & Configuration, IP & Analog Cameras, DVR/NVR Setup, Remote Viewing, Cable Management.

Embedded Systems & IoT: Arduino, ESP32, ESP32-CAM, ESP8266, C++ Programming, Prototyping, Deployment.

Software & Tools: Cisco Packet Tracer, Hyper-V, VMware, WAC, Azure Portal, ARM Templates, NVR/DVR Management Software, Adobe Photoshop.

Soft Skills: Problem-Solving, Teamwork, Communication, Time Management, Project Management, Business English.

PROJECTS & EXPERIENCE

Azure Hybrid Infrastructure Lab — *AZ-104 / AZ-800 | 2025 – 2026*

- Provisioned Azure VMs, VNets, NSGs, Storage, and AKS using Azure Portal and ARM templates.
- Configured Azure AD, RBAC, Azure Policy, hybrid identity, Azure Arc, and Azure Monitor.

Azure Network & Security Architecture Lab — *AZ-700 / AZ-500 | 2025 – 2026*

- Designed Azure VNets, VPN Gateway, Firewall, Application Gateway, and Load Balancer.
- Implemented PIM, Identity Protection, Defender for Cloud, Sentinel, and Key Vault security.

Windows Server 2016/2025 Enterprise Lab — *Hyper-V & AD DS | 2024 – 2025*

- Built enterprise lab using Hyper-V; deployed AD DS, DNS, DHCP, GPO, Failover Clustering, NLB, and Storage Spaces.
- Managed users, groups, OUs, and secured AD DS with monitoring and recovery procedures.

Smart Road Monitoring System — *Graduation Project | 2023 – 2024*

- Built IoT system using ESP32-CAM for real-time road image capture and transmission to a Flask server.
- Applied embedded systems and IoT principles for remote monitoring, enhancing road safety and traffic management.

Cisco Networking Labs — *Routing, Switching & Security | 2022 – 2023*

- Configured OSPF, EIGRP, RIP, VLANs, ACLs, port security, and advanced network diagnostics in Cisco Packet Tracer.

CERTIFICATIONS

- National Telecommunication Institute (NTI) — Microsoft Azure Administrator
- Windows Server 2016/2025 Administrator
- CCNAv7: Introduction to Networks
- CCNAv7: Switching, Routing & Wireless Essentials
- CCNAv7: Enterprise Networking, Security & Automation
- Digital Egypt Pioneers Program (DEPI) — Infrastructure & Security – Cisco Network Administrator
- Digital Egyptian Pioneers (OTO Courses) — Business English Track
- Introduction to the Internet of Things (IoT) & Embedded Systems
- The Arduino Platform & C Programming
- Interfacing with the Arduino
